

**Patient Participation Group  
"Expression of interest in joining"**

Are there any particular parts of the Practice services that you are interested in? (e.g. children and young people, older people, online services)

---

---

---

Do you have any particular experiences, skills, knowledge that may be helpful to the PPG?

---

---

---

Is there anything else you would like to tell us, or things you think we should be looking at?

---

---

---

---

---

When you have completed this section, please tear off this slip and return it to Reception at either surgery.

You can also contact us on our email address:  
**[sedwest.ppg@nhs.net](mailto:sedwest.ppg@nhs.net)**

(Please note this contact address is managed by our volunteers so is not continually monitored.)

Patient Participation Group

You can help to develop  
patient services at our  
GP Practice.

May 2022 (V6)

## Patient Participation Group (PPG)

We are an active group of patients volunteers who support the Practice. We want to help make our services as good as is possible for every patient.

Our group is a really useful link between patients and the Practice helping us work better together so the staff understand the viewpoint of patients on services.

You could join either our meeting group or if you have little time but are interested our virtual group so you can give us your ideas without coming to meetings.

We welcome patients aged 18 or over, particularly those with young children or teenagers, carers, patients with a disability, and those with long term conditions (such as asthma, hypertension, heart disease, kidney disease, diabetes) who use the services of the Practice either regularly or only occasionally.

We especially encourage patients of working age to join the group as we realise that sometimes it can be difficult for you to access services.

### Your Practice & PPG needs you!

Our meeting group meets approximately every six weeks at 6.00pm.

## PURPOSES OF OUR "PPG"

### In brief...

To provide a link between patients, doctors and staff.

To help the continual improvement of services locally and across East Sussex by listening to patients' experiences and sharing these where appropriate.

To encourage all patients to be more aware of their own health needs and understand how we can all look after ourselves better.

To act as a representative group of patients to help support and influence the development of health and social care both in our surgery and across East Sussex.

**Please note: This group is not able to deal with any individual or personal issues or complaints.**

*If you do have any concerns about the service you receive please talk to a member of the Reception staff or ask to speak to the Practice Manager who will be pleased to explain the ways in which the Practice will listen to you and support you.*

## Interested in becoming involved?

I would like to help develop the future of patient services at Sedlescombe & Westfield Surgeries, please tell me more about the following:

(Please tick the relevant box/s)

Patient Participation Group (I can attend meetings)

Patient Virtual Group (Contact through email)

Please contact me to tell me more
